Jeep Wrangler

Jeep®

Motor Really Moves!

WARNING:
CHOKING HAZARD – Small parts. Not for children under 3 years.

Motor Included
AA(LR6) Not Included
Keep this important information for future reference

**WARNING:** CHOKING HAZARD – Small parts. Not for children under 3 years.

**CAUTION:** Keep hands, face, hair and clothing away from all moving parts.

**Battery Information**

**How to Insert and Remove Batteries**
Insert 2 fresh AA batteries* (LR6) into the compartment with the correct polarity (+/-) as shown here.

* Not included

**CAUTION: To Avoid Battery Leakage**
- Do not mix different types of batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable batteries.
- Do not mix new and used batteries. Only batteries of the same or equivalent type recommended should be used.
- Remove exhausted batteries from the toy; do not short-circuit supply terminals.
- Remove all batteries if the toy will not be used for a long period of time.

**Important Tips**
- Alkaline batteries are recommended.
- Rechargeable batteries are not recommended.
- Remove rechargeable batteries before recharging; they must be charged only under adult supervision.
- Non-rechargeable batteries must not be recharged.
- Keep components free of dust; do not immerse or use in water.
- Do not dispose of batteries in a fire; they could leak or explode and cause injury.

---

**Start Building**
Each piece has its own shape and color. Just look at the pictures, find the pieces in your set that match and then connect them together.
Try to face your model in the same direction as the instructions while you build. The arrows show you where the parts connect, but not all connections points have arrows. Faded colors show you this section is already built.

**Connectors**
You can slide these special connectors together. Push tightly until you hear a “click”. Pay close attention to the instructions and position them horizontally or vertically exactly as they are shown.

**Spacers**
There are places in your model where you need to add spacers. Be sure to use the correct number of spacers shown in the instructions.
Place gray connectors here.
Make sure the gears mesh.
Did you install 2 AA (or LR6) batteries in the motor?

Flex or remove connector to add battery pack.

Rotate Model.
