You Build It!

MOTORIZED MOVEMENT!

WARNING:
CHOKING HAZARD – Toy contains a small ball and small parts. Not for children under 3 years.
You’ll find it in every K’NEX Set. STEAM stands for Science, Technology, Engineering, Arts & Math and when it’s connected with imagination, building dreams becomes fun-powered 3D reality. The journey to WOW begins with a single click.
Start Building
Look at the pictures, find the pieces in your set that match and then connect them together. Try to face your model in the same direction as the instructions while you build. The arrows show you where the parts connect, but not all connection points have arrows. Faded colors show you this section is already built.

Connectors
Push these special connectors together tightly until you hear a “click”.

Spacers
Be sure to use the correct color and number of spacers shown.
Battery Information

How to Insert and Remove Batteries

Use a small Phillips head screwdriver to loosen the screw. Insert 2 fresh AA (LR6) batteries [not included] into the compartment with the correct polarity (+/-) as shown here. Install batteries before building models.

CAUTION: To Avoid Battery Leakage

- Insert batteries with correct polarity (+/-) as shown.
- Do not mix different types of batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.

Important Tips

- Do not mix new and used batteries. Only batteries of the same or equivalent type recommended should be used.
- Remove exhausted batteries from the toy; do not short circuit supply terminals.
- Remove all batteries if the toy will not be used for a long period of time.

WARNING: CHOKING HAZARD

Toy contains a small ball and small parts. Not for children under 3 years.

CAUTION: Keep hands, face, hair and clothing away from all moving parts.

Parts List

Be sure to compare the parts in your set with the parts list here.
